

# KNOW WHO'S WHO ... ANYWHERE

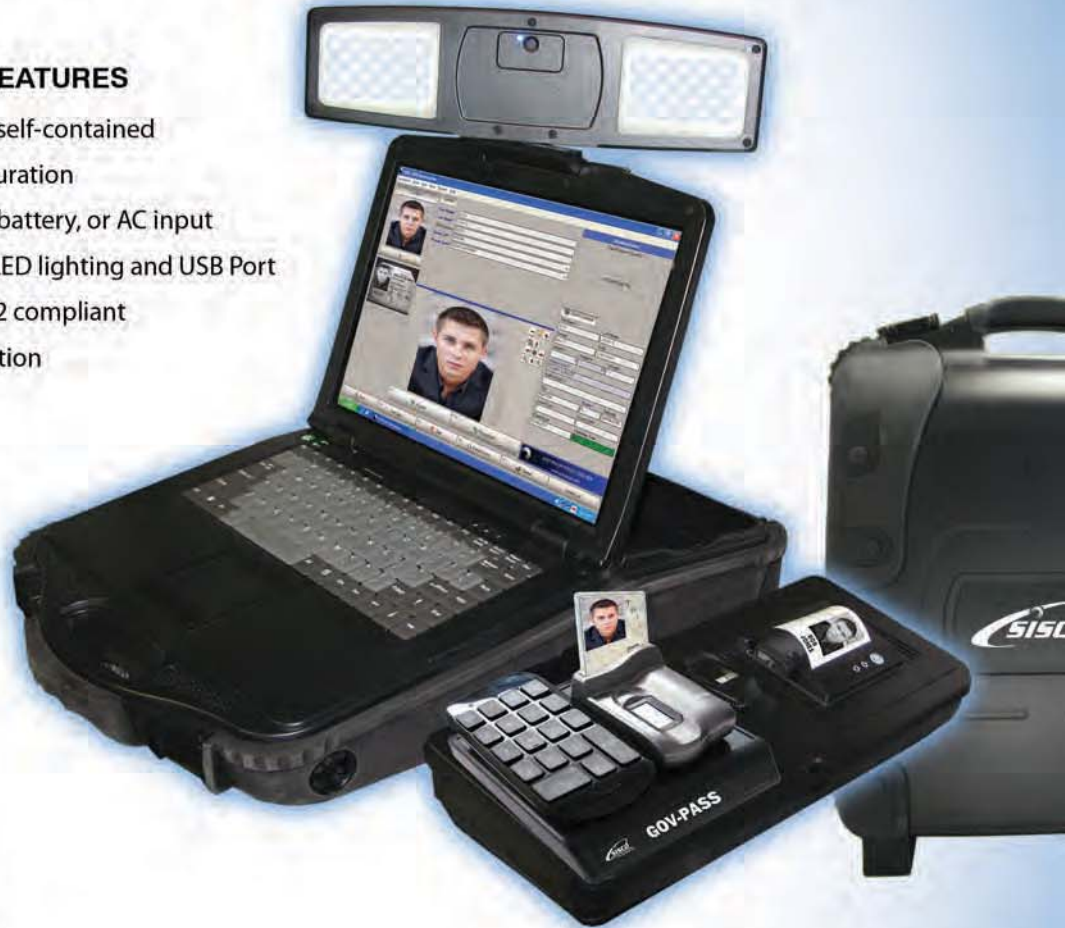

## GOV-PASS<sup>®</sup> ICU

### IDENTIFICATION CREDENTIALING UNIT

**GOV-PASS<sup>®</sup> ICU**, even more mobile than its predecessor the **FAST-PASS<sup>®</sup> MIU**, is the latest addition to **SISCO's GOV-PASS<sup>®</sup> Solution**. The ICU is an easy-to-use, highly portable identification system designed for rapid deployment and operation under adverse field conditions. Housed in a rugged, weather-resistant case, the ICU contains a high-efficiency CPU, digital camera, Smartcard and fingerprint readers, signature pad and identification badge printer.

#### GOV-PASS<sup>®</sup> ICU FEATURES

- Versatile, mobile and self-contained
- Highly flexible configuration
- Internal 2.5 to 3 hour battery, or AC input
- Camera with built in LED lighting and USB Port
- FIPS-201 and HSPD-12 compliant
- Certificate authentication
- PACS integration

The ICU can be configured to read PIV, CAC, TWIC and FRAC cards, drivers licenses, green cards and passports. It captures photographs and biometrics, can print ID cards or passes, track and report on the entry and exit of personnel from an emergency site, building, vessel or temporary location. The system is ideal for tactical and emergency operations where personnel identification and visitor screening are critical. The ICU allows real time verification of identity, watch list and/or background checks. **GOV-PASS<sup>®</sup> ICU** is the most advanced, portable and robust identification credentialing system available today.
